EDUCATION

Indian Institute of Information Technology (IIIT) Sri City

- B.Tech in Computer Science and Engineering
 - Expected Graduation: 2028
 - Current CGPA: 8.71
-

TECHNICAL SKILLS

- **Languages:** JavaScript, C++, Java, Python
 - **Frontend:** React.js, HTML5, CSS3
 - **Backend:** Node.js, Express.js
 - **Databases:** MongoDB, MySQL
 - **Tools & Platforms:** Git, GitHub, Postman, Vercel, Render
-

Projects

Full-Stack Project Manager Application | React, Node.js, Express, MongoDB

- Engineered a secure RESTful API with 15+ endpoints using Express and JWT/bcrypt for secure user authentication and routing.
- Built a responsive React frontend utilizing React Context API for global state management, seamlessly handling 2 core user flows like board creation and task assignment.
- Designed a scalable MongoDB database with 4 optimized schemas (Users, Boards, Tasks, etc.), enabling efficient data retrieval and one-to-many relationship mapping.

Weather App | React

- Engineered a dynamic frontend application using React to consume and display live data from a third-party RESTful API.
